M12 700 WATT
MODULAR 12CM FAN SERIES

M12 700 WATT • ITEM #: 12073

- Modular DC cables for maximum flexibility for gamers, overclockers and system builders.
- 3% line regulation for +12V rail for maximum stability, security and performance.
- Super high efficiency for energy savings, over 80% at all loading levels.
- Dynamic Load on +12V to ensure maximum compatibility with mainboards and perhperials.
- Multiple 12V outputs with enhanced +12V current capability to broaden utilization capabilities.
- High reliability Aluminum Electrolytic capacitors for increased product life and reliability.
- Active Power Factor Correctin [99% PF] for reduced line noise and power distortion.
- Advanced Dual Forward Converter circuit design for added reliability and efficiency.
- Smart and Silent Fan Control [S2FC], one of the best performance noise controller available on the market.
- 12cm double ball, ball bearing fan for increased airflow and lifetime and reduced noise levels.
- Extra 6cm double ball, ball bearing fan to further increase airflow and life time without increase in noise levels.
- 12cm ball bearing fan mounted on soft rubber cushions to reduce fan vibration and rotation noises.
- Ultra ventilation [Honey Comb Structure] for increased airflow and reduced noise levels.
- 2x PCI-Express connectors to support high end graphics cards. 500w and above models are SLi and Crossfire approved.
- All in One DC Cabling to support PC, IPC, workstations, servers and dual CPU systems.
- Patented Easy Swap peripheral connectors for easy plug and unplug connection.
- Total Protection with Over Voltage, Over Power and Short Circuit Protection.
- Universal AC Input for plug and run anywhere around the world.
- >100,000 hours MTBF, excluding fans.
- RoHS compliant.
- PFC Harmonics compliant, EN61000-3-2: 2000
- CE, FCC, BSMI, C-tick & Safety approvals: TUV, C-UL, Demko, Nemko, Semko, Fimko, GOST-R, CCC & CB
